

ALGOVISTA

Your Own **AI-Powered** Data Analytics Wing

We help MSMEs uncover **revenue leakage**, automate **decision making**, and build **affordable analytics** systems — so your data finally starts working for you.

algovista.co

THE PROBLEM

Your Business Data Has Answers You Can't Hear

Most Indian MSMEs sit on goldmines of data — buried in Tally, ERPs, spreadsheets — but lose lakhs every month because they can't see the **revenue leakage**, missed opportunities, or operational blind spots.

Revenue Leakage Is Invisible

Uncollected payments, underpriced services, expired inventory, idle assets — revenue is leaking from departments you're not even monitoring. Without **analytics**, you're guessing where the money goes.

Decisions Based on Gut Feel

Intuition-driven decisions work until they don't. A single misjudgment on inventory, pricing, or staffing can cost months of profits. **AI-powered analysis** removes the guesswork.

Reports That Arrive Too Late

Monthly Excel reports reach your desk weeks after problems have compounded. Real-time **decision making** needs real-time data — not stale spreadsheets.

No Visibility Across Operations

Sales doesn't see what finance sees. Procurement doesn't know what the warehouse knows. Data silos kill efficiency and compound **revenue leakage**.

Dead Stock & Wasted Spend

Without demand forecasting, inventory piles up, cash gets locked, and expired products go straight to waste. **Affordable analytics** solves this from day one.

OUR SERVICES

End-to-End AI-Powered Data Analytics

From raw data clean up to predictive models powered by AI — we deliver **actionable analysis** that drives **decision making**, not just dashboards that collect dust.

01

Business Intelligence & Dashboarding

Custom real-time dashboards giving leadership a single view of all KPIs. Built with AI-generated insights, mobile-responsive, accessible from any device.

02

Data Cleaning & Integration

We consolidate your messy, scattered data from multiple sources into a clean, unified, analysis-ready dataset with automated pipelines.

03

Forecasting & Predictive Analytics

AI-driven demand forecasting, sales prediction, seasonal trend analysis, and cash flow projections — plan ahead instead of reacting late.

04

Financial Analytics

Revenue tracking, cost analysis, margin breakdown, and systematic identification of revenue leakage across every department and product line.

05

Sales & Marketing Analytics

Campaign ROI, customer acquisition cost, conversion funnel optimization — measure the return on every marketing rupee you spend.

06

Custom ERP & Billing Systems

Don't have management software? We build a complete standalone ERP with billing, inventory, and analytics — all integrated from day one.

INDUSTRIES WE SERVE

Deep Domain Expertise. Not Generic Reports.

Every dashboard and AI model we build is tailored to how your specific industry operates. We understand your KPIs and deliver **analysis** that drives real **decision making**.

 Manufacturing	 Healthcare	 Pharmaceutical	 Logistics
 Packaging	 Construction	 Education	 Solar Energy
8+ INDUSTRIES SERVED	75+ KPIS TRACKED	24/7 DASHBOARD ACCESS	

Works With Any Software You Already Use
 We integrate with any ERP, accounting, or management software your business runs on — whether it's industry-standard or custom-built. No migration, no disruption, no new tools to learn.

No Software Yet? We'll Build One For You.

If your business doesn't have a management system, we build you a complete standalone ERP with AI-powered analytics dashboard billing, inventory, staff tracking. Everything fully integrated in one place.

HOW IT WORKS

Live in 10–14 Days. Not Months.

The AlgoVistaModel: rapid deployment, zero disruption. We work with what you already have and get your **AI-powered analytics** system running in under two weeks.

- 1

Assess & Connect

We audit your existing data sources and identify the highest-impact KPIs. Your data is protected by our partnership with an [ISO 27001:2022 certified](#) infrastructure firm — enterprise-grade security from day one, not just a signature on paper.

2

Build & Configure

We deploy your custom analytics portal with automated data pipelines, real-time dashboards, role-based access, and AI-generated insights — all tailored to your industry and operations.

3

Activate & Train

Hands-on onboarding for your entire team — from floor managers to the CEO. We configure automated alerts, reporting schedules, and ensure everyone is comfortable using the system for daily [decision making](#).

4

Optimize & Scale

Continuous monitoring, monthly insight reports, and iterative AI model improvements as your business grows. We add new [analysis](#) modules as new needs emerge.

OUR EDGE

Why AlgoVista?

We're not a generic IT vendor. We're an **AI**-first analytics firm built specifically for India's MSME sector — delivering enterprise-quality **analysis** at a fraction of the cost.

Your Own AI Analytics Department — Without Hiring One

The big consulting firms charge lakhs per month and take months to deliver. AlgoVista gives you a complete AI-powered analytics wing — dashboards, forecasting, reporting, and continuous insights — at a fraction of what it costs to hire even a single analyst. Talk to us to find out how.

Zero Software Investment

We integrate with whatever you already use. No new tools to buy or learn. No migration headaches. And if you don't have software — we build one for you.

Real-Time, Not Month-Old

Web-based dashboards with live data, accessible from any device. AI flags anomalies and generates insights automatically — no waiting for month-end reports.

Direct Founder Access

You work directly with the founders — not junior analysts or account managers. Fast turnaround, personal accountability, zero red tape.

ISO 27001:2022 Backed Security

Your data is protected by enterprise-grade security infrastructure, backed by an ISO 27001:2022 certified partner. NDAs signed before any data exchange.

Your Data Stays Yours

We never share, sell, or retain your data beyond the engagement. All dashboards and outputs become your intellectual property upon full payment.

AI That Actually Helps You Decide

Not just charts — our AI generates plain-language insights, flags revenue leakage, predicts trends, and gives you the confidence to make data-backed decisions every day.

THE ALGOVISTA ADVANTAGE

An Entire **AI Analytics Wing** For Less Than You'd Expect

Stop losing money to blindspots. Get a full-scale analytics department — powered by AI, built for your industry, live in 14 days. No heavy investment. No long contracts. Just results.
